

[TripMode 1.0.6 For MacOS](#)

### Block unwanted traffic

Only apps that you've selected are allowed to access the Internet when TripMode is ON. The rest is blocked.

### Save data automatically

TripMode activates itself on networks where you used it before. No need to fiddle in menus. It's super easy.

### Track your data usage

See how much data was used per app and per session, day, or month. Spot the data hungry apps.
